Saint Jean Carbon Announces Exercise of Subscription Right for a \$75,000 Private Placement

December 3, 2013, Oakville, Ontario, Canada – Saint Jean Carbon Inc. (“Saint Jean” or the “Company”) (TSX-V: SJL) is pleased to announce that it has received an exercise notice for the purchase of 1,500,000 units (the “Units”) at a price of \$0.05 per Unit for gross proceeds to the Company of approximately \$75,000 (the “Offering”). This Units offered under the Offering are in addition to the \$300,000 private placement announced on November 27, 2013 and are offered on the same terms as the Units that are being offered in that private placement.

Each Unit will consist of one (1) common share (“Common Share”) in the capital of the Company and one (1) Common Share purchase warrant (a “Warrant”). Each Warrant will entitle the holder to purchase one Common Share for a period of two (2) years from the closing of the Offering at an exercise price of \$0.05. The net proceeds from the Offering will be used by the Company for working capital and general corporate purposes. The Warrants are non-voting and may not be exercised if their exercise would result in the investor holding over 9.9% of the outstanding Common Shares.

The Offering results from the exercise by a certain investor of a further tranche under an agreement (the “Subscription Agreement”) with the investor, which was first announced on May 7, 2013 and has been approved by the TSX Venture Exchange. The Subscription Agreement gives the investor the right (“Subscription Right”), but not the obligation, to purchase up to \$825,000 in additional units over a 12-month period, at an issue price that is a 20% discount from the 30-calendar-day volume weighted average price of the Common Shares, subject to the pricing requirements of the TSX Venture Exchange. The investor may exercise any or all of the Subscription Right at any time but each month the amount of the Subscription Right remaining to be exercised is reduced by \$75,000 whether the Subscription Right is exercised or not. Upon closing of the Offering, a total of \$575,000 will be remaining under the Subscription right.

Under the Subscription Agreement, a finder's fee of 8% of the aggregate gross proceeds arising from the Offering is payable by the Company to Euro Pacific Canada Inc. In addition, the finder will receive 120,000 non-transferable warrants (the "Compensation Warrants") which is equal to 8% of the total number of Common Shares issued under the Offering. Each Compensation Warrant will be exercisable at a price of \$0.10 per Common Share for a period of 24 months from the closing date of the Offering. All of the securities issued pursuant to the Offering will be subject to a hold period of four months and one day pursuant to applicable securities laws.

About Saint Jean Carbon Inc.

Saint Jean is a publicly traded junior mining exploration company with a number of mining claims. The Walker property which is located 40 km north-east of Ottawa consists of 4 claims covering the past mine and 11 claims covering interesting geological context for more graphite mineralization in the region around the deposit. The Mount Copeland molybdenum deposit lies within metamorphic rocks flanking the southern margin of Frenchman Cap Dome, 32 kilometers

northwest of Revelstoke, British Columbia (the “Mount Copeland Property”). The Fort-Eden copper property is comprised of 18 mineral tenures that total 2,828.6 hectares in area. The mineral claims are located 100 km west of Fort St. James, BC (the “Fort Eden Property”). The Red Bird deposit is comprised of three zones of molybdenum concentration referred to as the Main, Southeast and Southwest zones within a property totaling 1,836 ha (4,400 acres) and is located 133 km southwest of Burns Lake and 105 km north of Bella Coola (the “Red Bird Property”). The Company plans to divest (the “Divestitures”) each of the Mount Copeland Property, the Fort Eden Property and the Red Bird Property through a sale or joint venture, thus allowing it to focus on building a graphite mining company. Additionally, Saint Jean expects to acquire the new lump graphite properties in Quebec (the “Wallingford and St. Jovite Acquisitions”) and the previously announced new lump graphite properties in Sri Lanka from Han Tal Graphite (Pvt) Ltd. (the “Han Acquisition” and together with the Wallingford and Jovite Acquisitions, the “Acquisitions”) in furtherance of its new focus.
